

Saburi Fiber

we make your ideas, come true!

Since 1988

Quality Fiber Glass Moulding
and Product Manufacturing

ABOUT US

We are working with clear objective of offering complete solutions to delight our customers since 1988 in Pune Industrial Hub. SABURI FIBER opted for innovative solutions, processes and composite moulding engineering. **We Make Your Ideas, Come True!**

Over the years we have established long term business relations with reputed OEM's in various type of industries. SABURI FIBER has achieved this through developing and manufacturing products including after sales service in efficient way. We have satisfied customers.

SABURI FIBER offer services from ideas/concept development starting with design, drawings, CNC Pattern development or Silicon/Fiber mould based on CAD output. We are also in reverse engineering. SABURI FIBER markets products to Automotive OEM establishments, Government Institutions and Corporate entities.
